

BHAWANA BHATT

DATA ANALYST | SQL | POWER BI | PYTHON | EXCEL

+91 9105164079 bhawanabhattach033@gmail.com bhawanabhattach bhawana8954

Summary

Data Analyst with an M.Sc. in Mathematics, skilled in **SQL**, **Power BI**, **Python**, and **Excel**, with hands-on experience analyzing customer, merchant, promotional, and **marketing data**. Experienced in **statistical analysis**, **dashboard development**, and translating large datasets into actionable **business recommendations**.

Skills

SQL & Data Warehousing: SQL Server, MySQL, Google BigQuery
Analytics & Business Intelligence: SQL, Microsoft Excel, Power Query, Power BI, DAX, Tableau
Statistical Analysis: Hypothesis Testing, Regression, Correlation, A/B Testing, Descriptive Statistics
Programming & Data: Python, Pandas, NumPy, SciPy, Scikit-learn, matplotlib, seaborn, Plotly
GenAI & Tools: LLM APIs, Generative AI, Jupyter Notebook, Git, GitHub

Projects

Digital Offer Targeting & Merchant Engagement Analytics Aug 2026

Tech Stack: Python, Pandas, NumPy, SciPy, Scikit-learn, Groq LLM API, Plotly

- Quantified incremental ad lift on **13.98M** customer records via two-proportion z-test, finding a **59.45% relative lift** ($p < 0.001$) in conversion over control.
- Built a treatment-aware **T-learner** to estimate individual-level uplift and rank customers by predicted response, with the top decile capturing **65% of test-set conversions**.
- Engineered a merchant engagement score across **8,812 businesses** (990K+ reviews) from normalized review/check-in/rating trends, classifying merchants into **Declining/Stable/Growing** health tiers.
- Built a **GenAI sentiment pipeline** validated against star ratings (**Pearson $r = 0.93$**), powering a **4-quadrant priority framework** that flagged **41%** of merchants expansion-ready and **25%** needing intervention.

Retail Promotion Intelligence Platform: Promotional ROI & Customer Analytics June 2026

Tech Stack: SQL Server, Power BI, DAX, Python, Pandas, NumPy

- Analyzed **2.6M+** retail transactions against behavioral baselines, finding **\$1.45M** in discount spend generated only **\$230.66K** incremental sales—**ROI of \$0.16 per \$1 spent**.
- Evaluated campaign performance and promotion mechanics across **1,584 households**, finding results **85–93% below baseline** and mailers generating **+\$1.15K/day lift** vs. displays at **-\$167.71/day**, guiding channel prioritization.
- Built a 4-page **Power BI dashboard** with **DAX calculation groups**, **field parameters**, **RANKX/TREATAS measures**, and an interactive significance-threshold control for campaign performance analysis.

Experience

Senior Placement Coordinator, Ananya Placement Cell, Dept. of Mathematics, DU Jul 2025 – Jul 2026

- Consolidated **placement data for 100+ students** into structured reports and dashboards, translating **candidate and placement trends** into **insights supporting faculty decisions**.
- Served as primary point of contact for 6 recruiters, managing **student databases** and tracking **candidate outcomes**.

Sales and Marketing Intern, Path Provider Jun 2023 – Aug 2023

- Analyzed market trends and applicant preference data to identify acquisition opportunities and inform outreach strategy.
- Advised 60+ students on college applications, contributing to **15+ enrollments** and **INR 3.75L+** in referral revenue.

Academic Research

Queuing Model Analysis on Supermarket Using Monte Carlo Simulation Jun 2025

- Developed a **Monte Carlo simulation model** to optimize queue discipline, reducing simulated wait times by **20%** and generating **data-driven recommendations** for operational efficiency and customer experience.

Education

Kirorimal College, University of Delhi Aug 2024 – Jul 2026

M.Sc. Mathematics

Delhi

Graphic Era Hill University Sept 2020 – Jun 2023

B.Sc. (Hons) Mathematics

Dehradun, Uttarakhand
